To Whom It May Concern:

TADplants were introduced in Atlanta, Georgia on June 22, 2012 at the Georgia Health Sciences AAID MAXI Implant residency during Doctor Ouellette's lecture to the group. A video recording of his presentation is on file and available upon request. TADplants have been further refined and are currently being tested in animal and human subjects. TADplants will be available on a limited basis during the testing phase.
